9amHealth

Your pharmacy spend has a clinical answer.

NEW

9amRx

Flexible medication access that fits your organization and members, powered by clinical care to improve outcomes and employee health.

9amRx Direct

High-cost medications at lower prices outside the pharmacy benefit. Employers contract directly to access manufacturer-direct transparent pricing.

Available now: GLP-1 medications
Coming in 2027: Autoimmune medications

Up to 4X ROI

Projected first-year ROI per 9amHealth internal modeling.

9amRx Complete

Medications are covered by the employer's pharmacy benefits.

Includes medications for all covered conditions.

40% lower GLP-1 prescribing rate.*

9amRx Self-Pay

Members pay for medications directly.

Available now: GLP-1 medications

Direct-to-consumer price for medications.

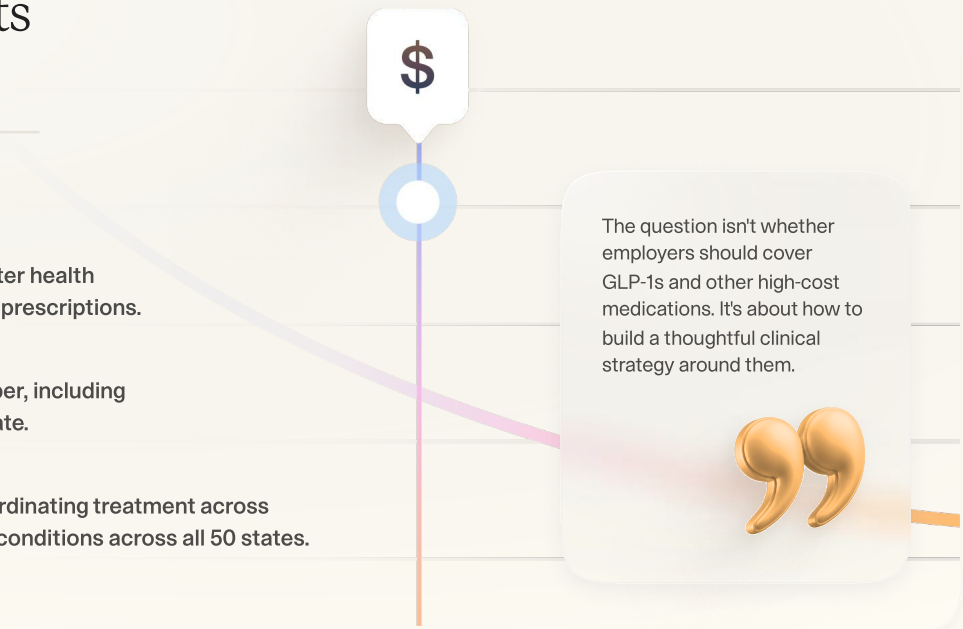

Manage pharmacy spend with formulary-aligned prescribing, medication optimization, and direct-to-employer medication access.

* Compared to 70% in community settings.

Better savings starts with better care.

- Specialized care that supports better health through lifestyle coaching, not just prescriptions.
- The right treatment for each member, including lower-cost options when appropriate.
- A multidisciplinary Care Team coordinating treatment across cardiometabolic and autoimmune conditions across all 50 states.

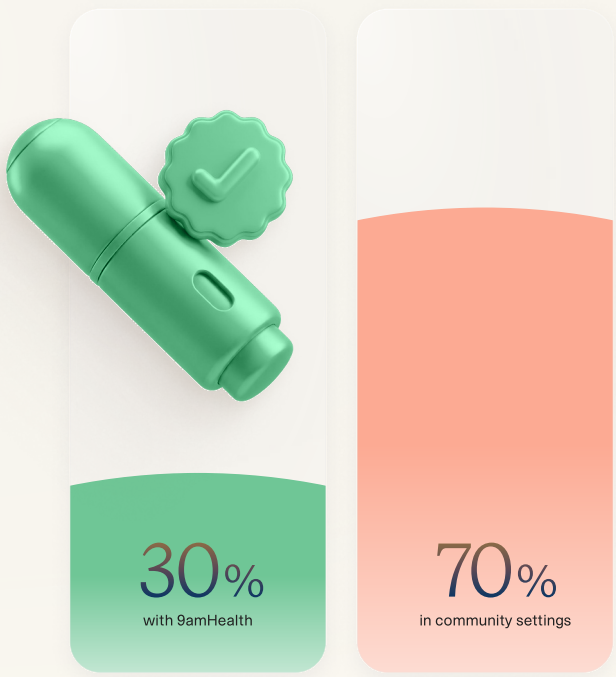

The clinical results behind smarter spend.

17.6%
Average weight reduction with GLP-1 weight-loss medications and lifestyle coaching[1]

9.3%
Average weight reduction with lower-cost medications and lifestyle coaching[1]

30% vs 70%
GLP-1 prescribing rate with 9amHealth compared with approximately 70% in community settings[2]

[1] Average weight reduction among 9amHealth members over 12 months. [2] GLP-1 prescribing comparison based on approximately 13,000 members across two Fortune 100 employers.
